

# Our Collective Action

---

What **beliefs** about the environment do we have in our class?

# Our Collective Action

---

What **actions** are our class already taking for the environment?

# Our Collective Action

What are some ways we **connect with nature** in our class?

# Our Collective Action

---

What **inspired** us from the stories we heard?

# Our Collective Action

---

What are the **core values** we have in our class?

# Our Collective Action

Now thinking about everything we have done so far, what action would we like to take as a class?  
This action should be inspired by the different beliefs, perspectives, values and feelings in the room.  
**How can we live these beliefs and values *together* by acting *collectively*?**
